

# LARGEST SUM

Starting at the bottom left corner and moving either up or right (but never down or left or diagonal), add up the numbers on your path. What is the largest number that can be made before you can't move any further?

5	2	5	4	1
7	6	1	7	3
5	9	4	1	5
2	3	8	3	2
3	1	4	9	6
