

August 26, 2014

Three kids helped their mom rake leaves. She told them that she would pay them a dime for each minute they worked. When they were done, they told her the following things:

- Adam: We all started at 9:00 and I stopped at 9:30.
- Beth: I worked 10 minutes longer than Adam.
- Charlie: I worked until 10:00 so I could finish it all up.

How much did their mom pay each of them?
